

**WUSM (<http://medicine.wustl.edu/about/facts/>).** WUSM has a rich history of success in research, education and patient care, earning it a reputation as one of the premier medical schools in the world. WUSM is organized into 20 departments, 10 academic programs and 25 research and education centers. Since its founding in 1891, WUSM has trained over 9,000 physicians and has contributed groundbreaking discoveries in many areas of medical research. WUSM is internationally known for research in neuroscience, genetics, diabetes, cardiovascular diseases, oncology, immunology, diagnostic imaging, and many other specialty areas. WUSM was ranked #8 in 2019 by U.S. News & World Report among the nation's research-oriented medical schools and currently has 2,379 full-time faculty members. In federal fiscal year 2018, WUSM received more than \$449.3 million in grants from the National Institutes of Health (NIH), ranking #4 for NIH funding. WUSM has a longstanding commitment and track record in the training of investigators in basic sciences and clinical sciences extending to their pre-doctoral Medical Scientist Training Program (MSTP; MD/PhD) that accepts up to 25 of the nation's most promising students per year.
